

MAN ARRESTED, GIRL IS FOUND

Police Take Brown from His Wife, and When in Cell He Tells Them the Hiding Place of Juliette Bunte

MISSING GIRL HIS FORMER SWEETHEART.

He Wanted to Marry Maid of Seventeen Before He Became Engaged to Young Woman Who Is Now His Wife.

The father and mother of Juliette Bunte, seventeen years old, of No. 148 Rutland road, Brooklyn, appeared in the Flatbush Court today to prosecute Fred J. Brown on a charge of taking their daughter from her home for immoral purposes. Brown is a young advertising agent, nineteen years old, who has a wife and baby. He had been arrested at his home, No. 246 Lenox road, in the early morning after a scene in which his wife of a year had become hysterical. Through a statement made by Brown Juliette Bunte, for whom her parents had hunted for ten days, had been located.

Brown said in court: "This girl is over the legal age of eighteen, and I did not take her away. I want time to subpoena the Registrar of Vital Statistics and witnesses."

He was held in \$1,000 bail for examination on Sept. 22.

Girl Not Present.

The girl was not present in court. Her father and mother appeared as complainants against Brown. They said they were too heart-broken to talk about the case. Asked as to the age of their daughter, the father said:

"She is just about eighteen years old."

After court adjourned Brown said the girl told him she was going away to earn her living, and he tried to induce her to go home. He says that once before she left home and he found out where she was and saw that she went back.

On one day last week when it stormed he admits he was at Bergen Beach with her. The intention that day was to sail with a party of friends, but the weather caused this to be postponed. He says he did not obtain the room for her in which she was living.

The Bunte family live a short distance away from the Browns, and Brown and the girl were warm friends before he married. It is said he desired to marry the girl two years ago, but her parents objected because of her age, and Brown apparently transferred his affections to the young woman who is now Mrs. Brown and in whose presence he was arrested today.

Ten days after the girl Juliette disappeared and the disappearance was reported to the police. Later the family heard that she had been seen with Brown at Bergen Beach and at other places. Yesterday it was reported that he had been seen with her again, and this morning before daylight with Detective Fallon Mr. Bunte visited Brown's home.

It was not yet daylight and the young wife, who had been aroused by the ring at the door and the demand for her husband, was horror-stricken at the charge which Bunte made.

Denies the Charge.

Brown denied the charge to his wife, and telling her that it was all right and that he had not seen the girl for a year went to the police station. There he refused to tell anything, and stuck to his story of not having seen her. He was told that it was a certainty that he had been at resorts with the girl inside of a week, and he was locked up.

After an hour in the cell Brown asked to see the sergeant at the desk, and asked what the sergeant thought was the best thing for him to do.

"If you know where the girl is, the best thing for you to do is to tell where she is. If the family get the girl they may have a disposition to let up, but I cannot advise you."

Brown then said the girl would be found in a furnished room near Clermont and Myrtle avenues.

The father was informed, and with a detective and his son went to the address and there found Miss Bunte. She was taken home.

Miss Bunte looks to be more than seventeen years old, and is pretty and stylish. She is considered one of the prettiest girls in Flatbush.

Through her parents, Miss Bunte made this statement: "I was enticed from home."

20 NOW DEAD IN HURRICANE

Southern Storm Caused Death Along the Florida Coast and Also in Some of the Inland Cities.

FRUIT CROPS DAMAGED, BUILDINGS DESTROYED.

This Morning the Storm Was Central in Northern Alabama and Moving Toward the Ohio Valley.

JACKSONVILLE, Fla., Sept. 15.—With telegraph wires down and details of destruction wrought by the tropical storm still incomplete, it is feared that the loss of life, now known to be twenty, will be greatly increased as communication is established and more is learned of the vessels which went ashore on the east coast.

Strewn along the coast north and south of Jupiter Light are wrecked freight ships. The crews of some of these are known to be saved, but the fate of many others remains a mystery.

Property Loss Reaches Millions.

The storm was one of the most disastrous in recent years, and the loss to property and crops will amount to several millions. Communication between here and Tampa is still broken, but belated train passengers bring news that though only two lives were lost in the city it will take over \$1,000,000 to repair the property damage.

At Palm Beach the Hotel Royal Poinciana alone sustained a loss of \$1,000,000. The Gruher Opera-House and the Gruher business block were unroofed. The Tropical Sun Building and the Palms block suffered the same fate, while the Sambolec block is totally wrecked. The Masonic Temple, the Dade County State Bank and the new Jefferson block were also badly damaged.

At Miami eight bodies have been washed ashore and other bodies have been recovered further up the west coast. Eight vessels are ashore near Miami and going to pieces on the rocks. Nine men of the crew of the Ingham, of Galveston, are known to have been drowned. The steamer was bound for Hampton Roads. Her steering gear broke in the heavy sea and she was hurled on the beach near Boynton with such force she broke in three parts and slipped back into the water. The captain and mates and fourteen of the crew got ashore in a lifeboat. Four men were lost when their boat was overturned in the surf.

Chief Streets with Wrecks.

The Martha Thomas, lumber laden, from Appalachicola, for Boston, went ashore nine miles north of Jupiter Light. Her crew is thought to have escaped. Three other vessels are stranded near her and nothing is known of the fate of their crews.

Two steamers which left Tampa for Mobile and New Orleans the day before the storm have not been heard from, and it is not thought they have survived the storm.

British Vice-Consul Sudlow at this port has received word that nineteen English sailors were saved from the wreck of a British freighter which went ashore at Delray, a few miles north of West Palm Beach, and are at the latter place in destitute circumstances.

The storm has not moved eastward toward the Atlantic coast, as was anticipated. Reports from Alabama and Western Georgia indicate that it is moving up into the region of the Ohio Valley, but with diminished velocity.

Two Men Dead at Tampa.

The two men killed at Tampa were Louis Baron, a cigarmaker, who was struck by a part of the cornice of the quick-to-fade kind, and T. H. Hume, a mortician, who met death near the Cuesta Rey cigar factory. He attempted to remove a wire which lay across the track and received a shock which proved fatal. The conductor who came to his assistance also was severely shocked.

The spire of the Basilica Baptist Church (colored) was blown from the building and landed across the street. The table ends of the Avery & Owens building, adjacent to the Seaboard Air-Line Depot, were also blown away.

LOST—ONE STORM!

Came out of Gulf of Mexico. Swept path of ruin across Central Florida. Piled coast with wrecks. Destroyed more than twenty lives.

Headed for the Jersey coast. Then changed direction and became central over Alabama.

Yesterday was headed for the Ohio Valley.

To-day still reported to be headed for the Ohio Valley.

Present whereabouts unknown.

The property loss at Tampa will be at least \$500,000. It is thought that half of the orange crop has been ruined around Tampa and one-fourth on the east coast.

It is reported that Florida losses have been completely washed away, but no communication has yet been possible.

FATAL RIOT IN ATHENS.

ATHENS, Sept. 15.—A demonstration in connection with the municipal elections here was followed last night by hand-to-hand street fights.

Fourteen persons were either killed or wounded.

GIRL BURNED AND FIREMEN MAY DIE

Child, Caught in Flaming Building, Loses Her Life, While Hurrying Rescuers Fall with Upsetting Hose Wagon.

(Special to The Evening World.)

NEWARK, N. J., Sept. 15.—Lottie Wells, seven years old, was burned to death in a fire, caused by a gas stove explosion in the apartment house, No. 612 Orange street today, and four firemen were badly injured by the upsetting of a hose carriage, while hurrying to the blaze.

One of the tenants was preparing dinner when the explosion occurred, the flames spreading rapidly and cutting off the escape of the occupants.

The Wells family lived on the second floor, and when they appeared at the windows and called for help

people on the street ran to meet the approaching engines, telling the firemen of the peril of the tenants.

The men of hose carriage No. 11 hearing the calls, the horses were urged to greater speed, and the carriage, taking a sharp curve at Roseville avenue and Orange street, tipped over, throwing the men to the street and crashing over on them.

A report spread that three were killed and added to the excitement attending the rescue of the people in this burning house.

None of the firemen was killed, but four were so badly injured that it is feared they will die. Others were bruised. They were hurried to the hospital, while some of the tenants who were overcome by smoke were treated by ambulance surgeons.

The efforts of the rescuers were directed mainly to the Wells family. All were saved except the little girl, Lottie, whose charred body was found after the blaze had been put out.

She had been overcome by the smoke and was unable to make her way to the window, and her relatives could not locate her.

The loss by the fire was not heavy. It was said at the hospital that the three injured firemen could hardly survive.

The seriously injured are: William F. Boland, skull fractured; John Norton, Connolly and Cletus Gaffney, hurt internally.

JAMES McGREERY & CO.

On Wednesday, September the 16th Exhibition of Shirtwaists.

2d Floor.

Showing the new Waists for the Fall and Winter season.

The mode is unusually attractive, being made of the latest soft silks and cloths such as:—Creme, louisine, taffetas, cashmere, crepe de cygne, satin grazelle, crepe brocade, &c., with many vestings, embroidered linens and damasks for the tailor made blouses.

The 1830 collars and trimmings of real duchesse, Cluny, point Bruges, Venise and antique laces, the new deep cuffs; the shoulder pieces, &c., all combine to make the models original and fascinating.

Provision is made for patrons desiring blouses for immediate or winter dress.

The prominent colors are mole-skin, lavender, black and white and several "mixtures" in silks and striped fabrics.

Twenty-third Street.
